	orcid.org/0000-0002-9980-4660

PROFESSIONAL EXPERIENCE

Postdoctoral researcher – Charles University	since 2026
Postdoctoral researcher – Universität Leipzig	2025–2026
Marie Skłodowska-Curie Actions Global Fellow Masaryk University, Universität Leipzig and UCLA	2023–2025
Research Fellow – University of Warwick	2019–2023

EDUCATION

PhD in Mathematics, Charles University, Czechia	2016–2020
Visiting student, Cornell University, US	spring 2019
Mgr in Mathematics, Charles University, Czechia	2014–2016
Bc in Mathematics, Charles University, Czechia	2011–2014

SUMMARY OF SCIENTIFIC RECORD

Research interests: descriptive set theory, combinatorics, random processes, local algorithms, tilings

Publications: 36 papers (29 papers published in mathematical journals, 1 paper published in computer science conference, 6 preprints)

Journal publications include those in Forum of Mathematics Pi, Advances in Mathematics, International Mathematics Research Notices (IMRN), Enseignement Mathématique, Proceedings of the American Mathematical Society (PAMS), Annales Henri Lebesgue, Combinatorica, Journal of Symbolic Logic (JSL), Journal of Combinatorial Theory, Series B (JCTB), Journal of Combinatorial Theory, Series A (JCTA), and Fundamenta Mathematicae.

Awards:

Early Career Award 2025 of the European Set Theory Society 2025

Marie Skłodowska-Curie Global Postdoctoral Fellowship 2023-2025

Mary Ellen Rudin Award 2022

Faculty of Science, Engineering and Medicine PostDoc Prize University of Warwick 2021

Josef Hlávka Prize 2018

SELECTED INVITED TALKS

Early career Award Lecture: *From descriptive to distributed*, The 10th European Set Theory Conference, *plenary talk*, (2026, Helsinki, Finland)

Tutorial talk: *CSPs and Borel combinatorics*, Homogeneous Structures: Model Theory

meets Universal Algebra (2025, FMO, Oberwolfach, Germany)

Translational tilings of the plane by a polygonal set, International Conference on Tiling and Fourier Bases (2025, Xidian University, Xi'an, China)

Descriptive graph combinatorics and distributed computing, The 37th Summer Conference on Topology and Its Applications, *plenary talk*, (2023, Youngstown, Ohio)

Measurable Vizing's theorem, Measured Group Theory, Stochastic Processes on Groups and Borel Combinatorics, (2023, CIRM, Luminy, France)

Measurable tilings, Workshop on Borel and Measurable Combinatorics in Algebra and Dynamics, (2023, Fields Institute, Toronto, Canada)

Descriptive set theory and distributed computing, 56th Spring Topology and Dynamical Systems Conference (STDC), *plenary talk*, (2023, online)

Descriptive set theory and distributed computing, Colloquium, (2023, University of Florida, US)

Complexity problem in measurable combinatorics, Nankai Logic Colloquium (online), (2022, Nankai University, China)

Local problems from various perspectives, Descriptive graph theory, (2022, American Institute of Mathematics, San Jose, USA)

INVITED SEMINAR TALKS (30+)

Including AGK seminar TU Dresden, MPI Leipzig Geometry Seminar, ELTE Borel Combinatorics Seminar, UCI Combinatorics and Probability seminar, UCI Logic Set Theory seminar, WIAS Material Modelling seminar, UCLA combinatorics seminar, UCLA logic seminar, CMU logic seminar, Caltech logic seminar, University of Florida Logic seminar, Oxford Algorithms Seminar, McGill Descriptive Dynamics and Combinatorics Seminar, DIMAP seminar, UBC Probability seminar, EPC webinar, Lancaster Algebra and Geometry Seminar, Warwick Combinatorics seminar, Cornell Logic Seminar

TEACHING AS INSTRUCTOR

Functional analysis I, University of Warwick, Term 1, 2022-2023.

STUDENTS

Nicholas Andrew Hodge, *Improved Bounds on the Sunflower Lemma*, *MSc Thesis*, University of Warwick, 2021-2022.

ORGANIZING CONFERENCES AND SEMINARS

Winter school in Abstract Analysis: Set theory and topology, Czechia, 2020–2026

AlgoMaNet Algorithms and Mathematics Network, Czechia, Hungary, Poland, 2024-2025

One day Combinatorics meeting, Masaryk University, Czechia, 2024.

Thematic semester Measurable Combinatorics, Erdős Center, Hungary, 2024

UCLA logic colloquium, UCLA, US 2024

Oberwolfach mini-workshop Descriptive Combinatorics, LOCAL Algorithms and Random Processes, Germany, 2022

Warwick Combinatorics seminar, University of Warwick, UK 2020–2022
